Java, **MySQL**, **Front-End Technologies** *(HTML-5 CSS-3 JavaScript)*, **C**, **Python**

📁 PROJECTS

Personal Portfolio Website   present
  - Personal Portfolio Website developed using HTML5, CSS3, and JavaScript.
  - The Website is mainly focused to be Responsive in design.
  - The Website also contains Animation and the Website is designed in such a way that it is user-friendly i.e the contents of the website are clearly distinguishable.

Covid Data-Warehouse   present
  - This is a web application developed and designed by using HTML5, CSS3, and JavaScript for the front-end, and Java is used for the backend along with a database where the data is stored where MYSQL is used.
  - Connection for the database is done using Java Database Connectivity(JDBC). This project is done as a mini-project where the main focus is to keep all the records of the Covid-19 patients and their primary contacts and secondary contacts as well.

Banking Application   01/2022
  - Simple Banking Application developed using the help of Java.
  - It is a simple mini-project that allows the user to Deposit, Withdraw, and can check their Account Balance as well.

Recruitment Management System   12/2021 – 01/2022
  - Recruitment Management System is a Mini-Project developed using Tkinter which is a Python Library used for GUI and Database used is MySQL.
  - This is a Web Application that consists of Two Platform-The One for the Interviewer and the other one for the Job Seeker, where the Interviewer is able to post a job vacancy and can accept the registration which was done by the candidate, and on the other side the candidate can able to see and apply for the new job vacancy.

🎓 TRAINING IN VARIOUS FIELDS

Training and Internship on Python, *Global Quest Technologies*
  From the basic concepts to intermediate concepts in python have been completed and focused mainly on object-oriented concepts(OOPS).

Java, *Self-Taught*
  I have completed core java concepts by myself by using many resources on the several websites and learnt the Object-Oriented concepts and now i am currently learning Advanced Java Concepts like Java Database Connectivity(**JDBC**).

🧩 ACHIEVEMENTS

Campus Brand Ambassador, *Cognizant*
  Currently i have been selected as Campus Brand Ambassador for the Cognizant Company where i as a brand ambassador of the company can share the various events,tech-talks and much more to the students of our college.

Open Source Contribution,
  Participated and cleared the HacktoberFest-2022 among which all my PR's got accepted in a very first go.Even got all the badges from the event.

📇 CERTIFICATES

Programming for Everybody (Getting Started with Python) ⊡
Coursera
